DETAILED ACTION

1. This action is responsive to communications: amendment filed 1/26/06 to the application filed on 12/30/98, priority 7/24/98.
2. Claims 11-14 are canceled.
3. Claim 10 is pending in the case. Claim 10 is independent claim.
4. The rejection of claim 12 under 35 U.S.C. 112, second paragraph, as being indefinite has been withdrawn in view of the cancellation of claim 12.

Priority

5. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
- 6.

Claim Rejections - 35 USC § 112

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 10, the added limitations "by replacing another one of the corporate organization code ... by said electronic email outputting unit" are not reasonable. It is confusing why outputting an electronic email to replace one of the organization code and the organization name is performed if a reply to the outputted email confirming the

Art Unit: 2178

replacement is correct whereas the replacement is already performed based on the coincidence of the data in the distribution target management table and the data in the master attribute information.

Also, the word "another" (line 38) is not proper and confusing since replacing is to replace something with something else. Here, one of the corporate organization code and the corporate organization name in the distribution target management table is *replaced with one of the master organization name and the master organization code in the read master attribute information*. Thus, it is suggested that the "another" be removed. The same issue is applied with the word "other" within "to replace the other one" (line 46).

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2178

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
